

Homework #11: Beginning iPhone Development with Swift

Due: Apr. 19, 2018

Preliminary

- Electronic submission of coding assignments will be through Canvas. Please upload a single .zip file containing project code. The zip file should be named with your (lowercase) first initial and last name, e.g. pdeleon.zip.
- Students responsible for the week's lecture should meet with Prof. De Leon during office hours the week *before* the lecture to review their lecture slides and receive feedback. This means completing the chapter the week before the meeting and creating the lecture slides.

Notes

- As a reminder, final app proposals are due 5:00pm Friday April 20, 2018.
- As a reminder, office hours are on Monday 1:30 - 2:30pm and Thursday 9:30 - 10.30am.
- Students interested in discussing the final app should meet with Prof. De Leon during office hours.

Week 14 Lectures

Luis Varela and Lenny Mendoza (Chapters 29 and 30)

Assignment

Submit the app at the end of Chapter 28.

1. Read Chapter 27 and develop the MyLocations app.
2. Read Chapter 28 and develop the MyLocations app.
